

PLAN SHEET CODES AND DESCRIPTIONS

Sheet Identification Codes, Sheet Names, and Plan Order

1. A coding system maintains sheet order during the design and construction of the project. The larger the project, the more important a coding system becomes because it facilitates sorting out specific data and is used extensively for cross referencing.
2. Coding identifies each sheet of plans by the appropriate code letter and by numbering those sheets consecutively, e.g., RD-1, RD-2, etc. Include only codes applicable to the project. Omit unneeded codes.
3. The project plan sheet name and sheet identification are both required on every sheet except the title sheet. Place the information in the standard title and revision block along the right hand edge of the plan sheet.
4. Do not place the sheet identification code on the sheet 1's (1- Title Sheet, 1A - Index to Plan, 1B - Storm Water Pollution Prevention Plan).
5. When structure design plans (major or minor structure, sign structure, box culvert, retaining wall for example) are included in the plan set, the UDOT Structures Division assigns appropriate structure numbers. When used, place the structure numbers as indicated in number 3 above. Provide appropriate structure number and description blocks.

ID Code

Letter Sheet Name

Sequence of Plan Development - See Note 2

1	Title Sheet - See Note 4
1A	Index to Plan
1B	Storm Water Pollution Prevention Plan
TS	Typical Sections
DT	Details - may include minor structures if no structure number is required
SM	Summary
RD	Roadway Plan
RP	Roadway Profile
PP	Plan and Profile - Use for small projects that can combine all information on the same sheet
UT	Utility/Topography
UR	Utility Relocation
RR	Railroad
GR	Grading
DR	Drainage
IR	Irrigation
EC	Erosion Control
LS	Landscaping
WM	Wetland Mitigation
SS	Signing and Striping
SG	Signal - SG-S... thru SG-S... for Signal Summaries. When a project has more than one signal intersection, individual intersections are numbered with a letter at the end, such as, SG-1A thru SG-9A and SG-1B thru SG-9B.
SI	Signal Interconnect
LT	Lighting
AT	Advance Traffic Management System
RW	Right of Way
MS	Material Site
----	Structures Drawings - See Note 5
----	Supplemental Drawings
